

# Join our Statewide PPE Network

PROTECTING OUR FRONTLINE PROVIDERS

Every day, healthcare workers will treat COVID-19 patients without the proper **Personal Protective Equipment (PPE)** to protect themselves due to a nationwide shortage. Meanwhile, non-essential businesses may have PPE, but don't know where or how to donate their supplies.

Your organization can help us address the PPE shortage by participating in our Statewide PPE Drive as a **community partner**.

## HOW IT WORKS:

### 1 Rally your members for a good cause

Solicit your members for donations through your regular marketing channels & personal outreach

### 2 Direct members to our website to donate

Our online form captures everything we need; you do not have to collect orders yourself!

### 3 Keep the momentum going!

Recognize members who've donated on social media, through press releases, etc.

## BE IN GOOD COMPANY:
